Blue Devils Play Lake Worth Tonite

Coach Webb Pell's Pahokee Blue Devils will invade Lake Worth this Friday night still seeking their first victory of the season after dropping a 25-24 heartbreaker to the Pompano Bearpicks at Pompano Beach last Friday night.

The Trojans also have lost both of their games, their opener to West Palm Beach, 41-6, and last week's contest to Fort Pierce, 19-6. They will be fully as eager as the Blue Devils to get into the win column. Halfback Ray Barnes, who broke through the Fort Pierce defense on a 53-yard gallop for the Trojans' lone touchdown, is expected to spearhead the running attacks of Coach Bill Cook's Trojan eleven.

Coach Pell and Coach William Howard have been working this week on the Blue Devil defense trying to bolster some of the weak spots that showed up in the Pompano game when the Blue Devils, after rolling up an imposing 18-7 lead in the first quarter, let their defenses soften up in the pelting rain and saw their lead melt completely away in the second and third quarters as the Bearpicks tore their defensive line to shreds.

With Guard Edwin Stuart and Back Wayne Burdeshaw still benched with injuries, Pell says

Chemical Company Makes Improvements

A \$40,000 improvement program is about to be completed by the Glades Chemical Company in Pahokee.

Installation of modern new mixing equipment in the plant is being made and shortly the monitor or "doghouse" of the new elevator will be installed atop the plant to finish the job.

The structure weighs between three and three and a half tons, and will be lifted into place by a 90-foot boom, Plummer said.

Nine hoppers holding five tons of fertilizer apiece have been placed together with a smaller hopper. A system of switches and buttons will operate the weighing and mixing of the fertilizer and the setup will handle 125 tons per day. From the weighing machine, the fertilizer will go down the elevator to be bagged. This was previously done by hand.

Parking Meters For Belle Glade Oct. 15

Automatic parking meters were installed in the Belle Glade business section last week.

The 250 new meters replace the manually operated meters which have proved unsatisfactory.

According to Police Chief Charles Goodlett, enforcement of the parking ordinance will be strictly observed beginning Oct. 15.

Funeral Held For Florida's Beloved Gov. Dan McCarty

FORT PIERCE, Sept. 30 — It was like Sunday all day in Fort Pierce today as the city, in mourning, buried its most illustrious and beloved native son—Gov. Dan McCarty.

Men in high stations of government came from all over the state to the funeral and many of them stood in the rain outside little St. Andrews Episcopal Church with neighbors and old friends of the Governor during the brief, simple funeral service.

There was only organ music at the church—no hymns. There was no sermon, no eulogy. It was short and serious, the way the Governor liked public ceremony.

The rector and the congregation alternately read from the Episcopal Book of Common Prayer. The bishop read the 15th Chapter of First Corinthians, which contains the passage:

"Death is swallowed up in victory. O death, where is thy sting? O grave, where is thy victory?"

He read also from the 14th Chapter of St. John:

"Let not your heart be troubled; ye believe in God, believe also in me. In My Father's house are many mansions. . . I go to prepare a place for you."

There was room for only 150 mourners in the 50-year-old church where the Governor worshipped as a boy and served as vestryman and lay reader.

The short, formal prayerbook funeral service was carried by loudspeaker to 250 others seated in the parish house at the rear of the church. Hundreds more stood silently in the churchyard and street during the service.

The solemn funeral procession to the little McCarty family cemetery rivaled in length any of the big motorcades that greeted him on his campaign election tour 18 months ago.

The contract for the purchase of two new patrol cars for the police department was awarded to Elliott Motors, Inc., low bidder.

Property owners outside the area specified for sidewalk improvement may also have walks built by signing contracts with the city and paying for the

Cinematic Chatter

By Malcolm Miller

Hello everybody! One of my favorite stars is Polly Bergen because she is such a clean cut little lady, and, I'll have to confess, because she is really a sexy package of femininity. Despite the fact that her voice was deemed "too sexy" for hillbilly songs, it was a hillbilly song that gave Polly her first big break. A recording of "Honky-Tonkin" won her a contract with Victor Records and with motion picture producer, Hal Wallis. The Bergen film career began in "Warpath". After that outdoor film and three Martin and Lewis pictures, Polly decided to make a change. "I wanted to get off to a fresh start," she says, "I wasn't at all sure of the ultimate destination of my first try in pictures. There's little chance of delivering a convincing dramatic performance in a picture with Jerry Lewis and Dean Martin. They're sure to break you up any moment." So Miss Bergen hit the

supper club trial. She wowed 'em with a naive, youthful act at the Maitland Room at the St. Regis Hotel in New York, where sultry torch singers are the rule, and her two-week engagement stretched into six. From there she headed with Gene Krupa at the Paramount Theatre, sang at the Chez Paree in Chicago and at Ciro's in Hollywood. It was at the last named club that she won the attention of M-G-M scouts. Following a successful test, she was signed to a long-term Metro contract. Two weeks later she was cast with Vittorio Gassman and Barry Sullivan in "Cry Of The Hunted", in which she enacted a non-singing role as Sullivan's devoted wife. Miss Bergen isn't at all disappointed by the fact that she wasn't required to use the "too sexy" singing voice in the "Cry Of The Hunted". "That can wait," she declares. "I don't want to give up singing entirely, of course, but I do want to mix comedy with straight drama and qualify competently for either." See you at the movies—Mal.

Starts Movement To Show Taxing Costs

ORLANDO — Dallas Hostetler, an executive of the Florida State Retailers Association, has organized the National Tax Freedom Holiday Foundation to dramatize the dangers to American liberty of excessive taxation.

The national Tax Holiday is the date on which the average citizen ceases working for the government and begins to earn something for himself. As taxes increase the taxpayer must work a longer time each year to earn the amount necessary to pay taxes.

In 1920 a person would have had to work approximately two months to pay taxes and the tax holiday date was Feb. 25. In 1953 he found himself working four and a half months with the tax free date extended to May 20. At the rate of increase it will not be many years before a person will be working half of his time to pay taxes, points out the Foundation.

Social Security Card Important

The importance of properly using one's social security card can hardly be overstressed. R. C. Kehren, Jr., manager of the West Palm Beach Social Security Administration office declared today.

"The omission of even a single wage report could conceivably lead to the loss of thousands of dollars in old-age and survivors insurance benefits to the family of a worker who died," he declared.

"Social security records, which are kept by name and number, not only are used to determine how much will be paid, but whether benefits can be paid at all. Consequently, part-time workers or those whose work is irregular may barely meet the minimum requirements even when all wages are properly recorded. Omission of one or two wage items could easily result in ineligibility," Mr. Gehrken, said.

Every worker can guard against this happening by making sure that his social security number has been copied correctly into his employer's records. Lost cards can be replaced easily by the local office on request. Application forms to get either new or duplicate social security cards can be obtained from any social security office, any post office or State employment office. The social security office will also provide a free post card form to be used in getting a statement of wages credited to the worker's social security account.

Congressmen Visit Flooded Sections

ORLANDO — A group of distinguished visitors invaded Florida this week when the U. S. House of Representatives' House Agricultural Committee visited the state to check on agricultural activities. The schedule included a tour of South Florida and a visit to the Everglades vegetable and sugar area where the party were guests of the U. S. Sugar Corporation at Clewiston.

The Florida Citrus Mutual sponsored a plane trip from Gainesville to Miami where the congressmen were guests of the Florida Fruit and Vegetable Association.

Greyhound buses transported the party to Clewiston and the Lake Area and took them on a tour of the citrus sections of the state. Dick Pope entertained them with a luncheon at Cypress Gardens and the state tour wound up with a visit to the rich vegetable producing areas of Sanford and Oviedo.

Daytona Will Get Mrs. America Contest

ASBURY PARK, N. J. — The Mrs. America Contest that has been staged here annually will move to Florida after this year's contest is concluded, it was announced by J. Oliver Armstrong, City Manager of the Jersey shore resort, who stated that Bert Nevins of New York, head of the Mrs. America Contest, decided not to renew his contract with Asbury Park and would move the event to Ellinor Village, Florida where the 1954 contest will be held.

About half of every ton of new steel produced is born of scrap metal, coming from auto graveyards, railroads, farms, demolished buildings, factories and even the ocean, according to U. S. Steel Corporation.

Salt Water Boats Must Have License

TALLAHASSEE — The State Board of Conservation announced this week that only boats used in salt water fishing are required to obtain a license. Boat owners must have such a license if any fishing is done aboard, and Vernon Peoples of the board said that the presence of even a hook and line aboard any craft would be considered equipment for taking salt water fish. The license applies to the boat, and any number of individuals may fish and not require a personal fishing license.

TO DISTRIBUTE JUICE

PHILADELPHIA — A manufacturer of automatic coin-operated coffee dispensing machines, announced here this week that arrangements have been completed for the distribution of Minute Maid

orange juice in his machines with the backing of Florida Citrus Mutual.

Lloyd K. Rudd, president of Rudd-Melikian, Inc., said his company and Minute Maid Corporation have been working on the development of the machine for some time and it has now been perfected.

RAINBOWS MEET

The Pahokee Assembly, Order of the Rainbow for Girls, met in the Masonic Hall Monday night with the new worthy advisor, Faith Brown, presiding for the first time.

Following a discussion of finances, a committee, composed of Jeanine Mock, Kay Friend, Gaye Schoepel and Faith Brown, was named to meet with the Belle Glade Rainbow Girls next week and propose that a joint fund-raising program be worked out by the two groups.

From where I sit... by Joe Marshall

One for the Books!

Noticed the Missus had a red ribbon tied around her finger at breakfast one morning last week. "What's that for?" I asked. "Your memory slipping?"

"It's not for me," she answers, "it's to remind you, and everybody else who asks what it's for, to contribute to the Woman's Club Library Fund. We need \$200 and we figured we'd get more help if we could get people to ask us about it."

Well, as it turned out, the red ribbon worked just fine. The ladies are having the library all

fixed up—and there's enough money for some new books, too.

From where I sit, it would be a fine thing if we had some sort of private reminder when we forget the rights of our neighbors. Like when we start telling them what we think is best. I may like a travel book and a temperate glass of beer while you prefer a cup of tea with your historical novel. Let's both remember not to "put the finger" on the other!

HAPPENINGS IN THE LAKE OKEECHOBEE REGION

25 YEARS AGO

Estimates vary as to the number of dead, white and colored, in the territory from Pahokee on the north, thence southward through Chosen-Belle Glade district, and west through the South Bay district and onward to the Hendry county line. The Everglades News estimate is that the number of dead, white and colored, is between 1,400 and 1,600. The number of white persons drowned is less than 200. The most congested negro population was in the negro section of Pahokee. In making this estimate of 1,400 to 1,600, note is taken of the number of negroes who were alive in Pahokee after the storm. With one exception, all of the deaths in the upper Everglades that resulted from the hurricane of September 16-17 were by drowning and most of the deaths were at the points where Lake Okeechobee's waters were driven during the first section of the storm by the wind from the north. Water attained a height of from 7 to 11 feet three miles south of the dike; it came to the ceiling of the dining room in the Belle Glade hotel.

Damage to contents was equal to the money losses caused by damage to store buildings and dwelling houses in the storm of Sept. 16-17 in the upper Everglades, for a heavy rain accompanied the wind and continued after the wind died down, and the rain and the flood waters reached every opening the wind had made.

Belle Glade: Most of the hurricane damage being at the south end of the lake because flood waters added to the wind, Belle Glade suffered heavier loss than any other town in that region because it had larger population and more buildings. The roof was blown off of the Belle Glade hotel, several buildings were floated off their foundations and practically every house of every type was damaged more or less. However the Tedder building, the Pace building, the Boree building, the Badger building and others were not completely demolished. The bridge house is gone and many other small buildings were totally destroyed. More houses were floated off their foundations at Belle Glade than anywhere else in the region.

South Bay: Damage to buildings at South Bay was about in the same proportion as at Belle Glade but less in total amount. The Willits store building is standing, but the stock was ruined. Denton's store was badly damaged, as also was Crocker and Friedheim's and Frank Franz's.

Chosen: Hans Stein's two-story dwelling was in sight after the storm, but the observer from the Pahokee road could not see Douglas' store building, if the building was there. Hooker and West's store was damaged, as was J. R. Leatherman's dwelling.

Pahokee: Dr. Creel's office and dwelling was in the middle of the main street the morning after the storm, and front was off Wilder's drug store, and the Stallions drug store was wrecked. The Hendricks building, also in course of construction, stood the storm, as did the Herman Gold building, also in course of construction. The Bank of Pahokee building and the Denton store were made to leak, but their roof and walls were intact. Damage was done to the Padgett store building. Many small dwelling houses were totally destroyed. Every building in town suffered some loss. The new school building stood, but the end was blown out of the auditorium and the gymnasium.

Canal Point: Every building in Canal Point suffered some damage, the Custard Apple Lodge, home of Mr. and Mrs. Jack Bar-

rett, more than any other large house. Doors and windows were blown out of The Everglades News building, but it was not moved off its pile foundation. One of the Magaw apartments was turned over on its side. Some of the iron roof was blown off the sugar mill. The brick school building held against the wind, but some damage was done to other buildings of the school plant.

Big Kraemer Island: There were 23 white persons on Big Kraemer Island on the night of the storm —19 in W. N. Turner's dwelling house and four in C. M. Sutton's house. No white person on Big Kraemer was drowned. There were eight negroes on the island on the night of the storm and it is uncertain how many of them were drowned.

Little Kraemer Island: J. W. Ives of Ojus is the manager of the company that owns all of the land on Little Kraemer Island. He was on the island, and he gathered all of his people on a barge before the storm broke. With him were his relatives, Mr. McLeod, and a Mr. and Mrs. Hooker and his negro laborers, 29 in all. Mr. Ives cut the barge loose at 8 o'clock. The wind drove the barge across the lake—he presumes to the vicinity of Miami Locks—and when the wind changed the barge was driven to the mouth of Hillsboro canal, and it landed in the muck two miles east of Everglades Experiment station. All of the 29 persons were saved except an old negro man.

All the banks in the Lake Okeechobee region are open and are transacting business as they did before the storm. These banks are: Bank of Canal Point, Bank of Pahokee, Bank of Clewiston and Peoples Bank at Okeechobee.

Not all of the upper Everglades is flooded—several hundred acres of ground are above water and dry enough to plow now, two weeks after the hurricane. The section 13 at South Bay owned by C. Wayne Jernigan of the sugar company at Canal Point, directing reconstruction work in Pelican Lake sub-drainage district, estimates that all of the land two miles north of Canal Point and two miles east will be made dry in less than 20 days by the operation of the pump.

Palm Beach Post—Property damage in Palm Beach county has been placed at \$33,894,000, by a special committee of builders, following an intensive survey of damaged homes and business houses in the district.

Creation of a special fund to be designated as the "Emergency Relief Fund" for use in meeting special needs not otherwise cared for was launched last week, following receipt of \$5,000 from W. J. Connors, of Palm Beach and Buffalo. In the name of the W. J. Connors Foundation, an organization of several years standing for the benefit of immediate emergency needs of the down and out, Mr. Connors forwarded the \$5,000 to D. H. Conkling through the Central Farmers Trust company here. The trust company immediately met the check with a similar amount from the institution itself. A check for \$1,000 was added by The Post Publishing company, bringing the total at present to \$11,000.

The Chemstrand Corporation of Pensacola is seeking men and women for training in various types of industrial work and offers permanent employment and excellent benefits.

Christian Science Group Of Canal Point

The total unreality of evil in any form will be stressed at Christian Science services next Sunday. Subject of the Lesson-Sermon is "UNREALITY."

A verse from I Timothy (6:17) provides the Golden Text: "Charge them that are rich in this world, that they be not highminded, nor trust in uncertain riches, but in the living God, who giveth us richly all things to enjoy."

Bible citations include the following from Matthew (6:24): "Ye cannot serve God and mammon."

Correlative selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "The demands of God appeal to thought only; but the claims of mortality, and what are termed laws of nature appertain to matter. Which, then, are we to accept as legitimate and capable of producing the highest human good?—It is impossible to work from two standpoints" (p. 182).

Here's What It Costs Us To Feed The World

It costs every man, woman and child in the United States \$625 for one of Uncle Sam's \$10,000,000,000 foreign aid hand-outs. For a family of four, that's \$2,500, the price of a new automobile. And already, today's federal debt is a crushing load of \$7,000 on the shoulders of the same American family.

Even forgetting the federal debt, the average American must work more than 4½ months out of the year to pay his current taxes. Actually, the first day in 1953 on which he could call a dollar his own, was May 20. All he had earned from January first until May 20 he had to pay out in taxes—federal, state and local.

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 ... a \$37.50 Bond will be worth \$67.34 ... and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 ... in 9 years and 8 months, you'll have \$2,850.90 ... and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new, current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$25,000.

Now even better! Invest more in Savings Bonds!

Thompson, Carroll Watson and Edward Cooper, seventh grade, and John Cassidy, 10th grade.

The patrol captain gives out the daily assignments of duty and it is the lieutenant's job to see the captain's orders are carried out, and all members of the patrol conduct themselves in accordance with the rules and regulations of the patrol. Each day of school four boys are assigned to traffic posts in the morning, two or three during the lunch hour and two at the close of school in the afternoon. Other duties of the patrol, in addition to directing traffic, are regulating the parking of students' bicycles, assisting the principal in keeping order on the school grounds and assisting city police at home football games.

The Pahokee Patrol hopes to be able to send two of its members to the annual national convention of school safety patrols in Washington, D. C., next spring.

Blue Devils Play—

(Continued from page 1)
his squad is only in fair shape for the Lake Worth scrap but believes it will be a more or less even struggle, with the game going to the team which gets the most breaks. He expects to use practically the same starting lineup that started at Pompano.

An offensive penalty imposed on a team is usually irritating but seldom proves as costly as the one called on the Blue Devil team in the final moments of the Pompano game. Near the end of the game, with Pahokee trailing, 25-18, Halfback Hal Rosenberg pushed over a TD as a climax to a 52-yard drive. Buford Justice then rammed through the line for the tying point only to have the play nullified by an offside. Another attempt to buck the line for the conversion failed and Pahokee was defeated by an offside.

On the offense the Pahokee line showed improvement in the Pompano contest, opening holes and throwing blocks for a 52-yard TD run by Justice, a 31-yard TD sprint by Quarterback Robert Goodson and a 57-yard jaunt to pay dirt by Rosenberg.

Budget Adopted—

(continued from page 1)

City Attorney Ralph O. Johnson was instructed to draw up a new ordinance for the building of sidewalks within city limits and submit it to the Council for study and adoption. Johnson was also instructed to secure for the city a right-of-way between South Park and Banyan Ave., for drainage purposes.

An amendment to the utility tax ordinance to include Western Union on the list of utility services taxed by the city was passed at the meeting.

The Council voted to have the city pay the Fort Mayaca Cemetery Commission \$448.01 every quarter as Pahokee's share in the cost of operating and maintaining the cemetery. Under the terms of a recent tri-city agreement, Pahokee shares equally with Belle Glade and South Bay the cemetery expenses.

The sanitation department reported several home owners have already purchased the city-approved 30-gallon garbage containers and asks for the cooperation of all residents in the standardization of the containers. Cards will be mailed to all persons using the city's garbage collection service notifying them that the new standard container is required by the city.

Robert J. Schroder, waterworks superintendent, was authorized to remove immediately the water meters of customers whose bills are delinquent.

Bride's Shower For Mrs. John Ogle

The Pahokee Woman's Club building was the scene Tuesday night of a party and bride's shower in compliment to Mrs. John Newton Ogle, who was Clara Louise Baxter before her marriage to Mr. Ogle on Sept. 17. Mrs. Richard Tillis was in charge of the bride's book. Mrs. Sizemore presented the program of entertainment in which Miss Arlene Rainer sang, accompanied at the piano by Miss Marie Henderson. Contest prizes were won by Mrs. Joseph Rosenberg and Mrs. Albert Fremd.

The honoree was assisted with display of the gifts by her sister, Miss Myra June Baxter.
